- Friday (9:00am - 12:00pm)
- Friday (12:00pm - 4:00pm)

Description

IWH Consultants has been established as a legionella management consultancy in Merseyside. The company offers an innovative approach to legionella management by using point of use filters to facilitate such an approach. This enables clients to reduce labour costs, impact on the environment, and exposure to dangerous chemicals for their staff. The company operates in the medical, hospitality and construction business sectors.

IWH operates a modern approach to water treatment and management, serving the best interest of the client.
