Bilateral Meetings

- Thursday (1:30pm - 6:00pm)
- Friday (9:00am - 12:00pm)
- Friday (12:00pm - 4:00pm)

Description

Jumpstart is one of the UK's leading R&D tax specialists with a proven track record in using a technology-based approach to leverage greater value into the R&D tax relief claims of its clients than those using traditional accounting-based approaches

We employ a team of 20 technical analysts, trained to the highest standards in their individual disciplines, combined with industrial R&D experience and an in-depth knowledge of HMRC legislation, allowing them to drill deeper and find the R&D activity even our clients don't know is there.

Over the last 8 years we have identified and documented over £360million of eligible spend and realised £68million benefit for our clients.
