Innovation Agency (AHSN for NWC)

<http://www.innovationagencynwc.nhs.uk>

Bilateral Meetings

- Thursday (1:30pm - 6:00pm)

Description

The Innovation Agency is one of 15 Academic Health Science Networks established by the NHS in England and covers a population of 4 million residents in Cheshire, Merseyside, South Cumbria and Lancashire. The Networks are a product of the Government's Innovation, Health and Wealth strategy. Their primary role is to form a network of NHS organisations, universities and businesses and achieve measurable results in the following key delivery areas:- To identify and address unmet need/ priority improvement areas To speed up the adoption of innovation To identify and enable research To create wealth

Offer

Networking and collaboration with public and private health sector organisations.

We are a network agency and support companies to establish collaborative partnerships with regional healthcare providers, universities, growth hubs and B2B partnerships. We also support our partners and network to secure funding.
