Bilateral Meetings

- Thursday (1:30pm - 6:00pm)
- Friday (9:00am - 12:00pm)
- Friday (12:00pm - 4:00pm)

Description

MSM Studio develops software and contents for education (pre-school, school, vocational). We develop our own solutions that we market and sell, and in addition we also provide development services to organisations that require high-quality educational solutions. Our partner/client list contains firms from Scandinavia, the UK, the USA, Israel, Ireland, Benelux and - last but not least - Poland where we are based. Recently, we have begun work on a new project in the field of virtual reality for medical applications, and we are looking for organisations interested in partnering with us in this new challenging task during its R&D stage. We are also looking for sales and distribution partners who will help us export our VR system to markets throughout the world.
