## Description

Neo- Plant Research and Development Ltd founded in 2011 has developed and patented a new cosmetic product family. It contains four products: skin care cream, face water, hair lotion and hair shampoo. The products are: NEOPLANT Skincare Cream, NEOPLANT Shampoo, NEOPLANT Aftershave and NEOPLANT Lotion. The cosmetic products are improving the state of the skin and are taking part in the regulation of the normal metabolic processes of the skin.

Offer

## Hungarian producer of natural cosmetic products is looking for distribution partners

Neoplant Ltd. would like to find partners for distribution.

Following the use of the Neoplant cosmetics, undesirable skin problems are annihilated or soothed, the skin regains its elasticity, flexibility. The Neoplant cosmetics also positively influence the water content of the skin. They help in case of problems like peeling skin, dry skin, acnes, inflammations, ulcers. The use of Neoplant is suggested in case of eczema, ulcer, rashes and inflammatory skin problems.

The advantage of the NEOPLANT family of cosmetic products as compared to other cosmetic products are the following:

**The products are cheaper than the other products on the market**

- **The products contain natural antibiotic, regenerative and soothing ingredients of plant origin**
- **They have no harmful side-effects**
- **They can be used by both women and men**
- **They contain no additives, such as dyes, preservatives and perfumes**
- **They can be used for an unlimited period of time**

**The company is looking for distributors with experience in pharmaceutical, cosmetic sector which could be able to extend the company's products in other countries.**

**Keywords: natural cosmetic skin care hair care body care face care**

**Cooperation Offered**

### **1. Sales / Distribution**
