Bilateral Meetings

- Thursday (1:30pm - 6:00pm)
- Friday (9:00am - 12:00pm)
- Friday (12:00pm - 4:00pm)

Description

ProNT GmbH is a high-tech start-up company located in Dresden, Germany, which was founded in 2015. ProNT is one of the first companies which produces directly semiconducting carbon nanotubes and provides carbon-based nanomaterials as a fundament for ultra efficient biosensors and gas sensors. The company possesses the know-how on the CVD-based synthesis of nanomaterials and their analysis. ProNT products suit for nanotube-based novel biomedical applications like gas- and biosensors. ProNT started in 2013 as TU Dresden spin-off project, and in 2014 the team won the first prize in the Free State of Saxony innovation idea competition for its break-through technology.

Offer

Components for ultraefficient biomedical sensors: biomolecule and gas sensors

We produce carbon-based nanomaterials and sensor components as a fundament for ultra-efficient biosensors and gas sensors. The company possesses the know-how on the CVD-based synthesis of semiconducting nanotubes, their processing, integration and analysis.

Keywords: Sensors Nanomaterials Carbon Nanotubes Nanotubes Biosensors

Cooperation Offered

- 1. Other**
- 2. Sales / Distribution**
- 3. Technical co-operation**
